GEORGIA will elect state officers and legislature, today.

Read Mr. Bryan's letter of acceptance on another page.

ABOUT time for the campaign here to get in his work. Look for him.

The populists in Cape county met at Jackson the 15th and nominated a full ticket with the exception of prosecuting attorney, common pleas judge and coroner. W. S. Wilkinson who established and was several years editor of the Comet is at the head of the ticket. Mr. Wilkinson seems to be fond of political lightning and don't mind being struck by it.

ONE HUNDRED and twenty five thousand miners are on a strike, in the Pennsylvania coal fields and troops are being scattered over the districts. Much anxiety is felt in regard to the probable outcome. It is said that the English speaking miners want to return to work but the foreigners out voted them and adopted a resolution to remain on strike and a clash with the troops is feared.

MR. BRYAN's letter of acceptance is much shorter than was McKinley's. Having discussed imperialism at great length in his speech, he devotes his letter to the other planks of the national platform, but in the close reaffirms that imperialism is the "paramount issue" and the question of greatest importance. He pledges himself, if elected, "to appoint an Attorney General who will enforce the laws," which adds greater strength to his otherwise strong letter.

THE republicans claim the democrats are trying to work an out-of-date scheme on the voters of Missouri by showing up the records of the republican party of thirty years ago. Now come, let's be reasonable. If after thirty years, the people are still paying for an experiment, as a plain business proposition, they certainly would be considered very unwise if they failed to get a lesson out of it, and the statute of limitations is hardly applicable to

such a proposition, at any rate, not before its expiration.

MISSOURI Democrat: The Globe-Democrat lambasts two Democratic members of the last Legislature, one because he had his sister-in-law, a son and a brother on the pay-roll, and another because he had a son and daughter and the latter's sweetheart in good jobs. Both these men were defeated for renomination, which was a very proper thing to do. But to come a little nearer home, how about Mayor Ziegenhein, who is charged with having 65 relatives on the city payroll?

IF COLONEL DALTON keeps on making the kind of speeches he made here last Thursday, there is going to be a whole lot of people mightily badly fooled in the majority this grand old State will roll up for the democratic ticket this fall.

The idea of any man going before the people, making, to put it as mildly as possible, the extravagant, reckless statements he is reported to have made, to a reading, thinking, intelligent people, is sufficient evidence of the quality of the man, and it is not necessary to say that he deserves the fate the 6th of November has in store for him.

Congressman Vandiver made four speeches in St. Louis this week. In order to secure some speakers of national reputation for various parts of this district Mr. Vandiver agreed with the state committee to give them four days of his time in September and also in October. He has also been requested by the Democratic state committee of Illinois to make a number of speeches in Illinois and he has also been asked to assist in the West Virginia campaign. These requests indicate that our congressman is appreciated and that his services are in demand in other parts of the country as well as by his friends in the 14th district.—S. E. Gazette.

What the Strike Means. Atlanta Constitution: What the anthracite strike means may be judged by the following figures: Number of men in anthracite mines..... 149,000 Number belonging to unions..... 134,100 Number that will go out..... 149,000 Number of persons deprived of income..... \$500,000 Union funds on hand..... \$450,000 Average daily wages received by miners..... 1.35 Average wages of day men at mines..... .90 Daily loss in wages..... 166,880 Area of coal fields, square miles..... 470 Average annual production, tons..... 75,000,000

Ninety cents a day seems to be a very munificent outcome of McKinleyism. It is an old saying that "all is fair in love and war," and Col. Flory, Republican candidate for governor, evidently believes that all is fair in politics, or he would never have assailed the reputation of Mrs. Stephens, charging her with spending the state money for stationary for her own private use. Heretofore we have considered Col. Flory an honorable gentleman, one who would not stoop to low, contemptible acts to gain his ends, but this, if true, stamps him as low and brutal in character, devoid of the sensibilities that make up the true gentleman. We can hardly believe that he is guilty as charged.—Cape Optimist.

A Hot Shot.

It is a something indeed for Joe Flory to talk about nepotism and extravagance in public life. The only place at his disposal during his entire career as a member of the State Board of Railway and Warehouse Commissioners he gave to his son, and as for extravagance, can a man on a salary of \$3,000 per year make transatlantic trips in private palace cars without there being a screw loose somewhere? There is either too much cash outlay involved in some of the trips

that Mr. Flory has taken during his incumbency in office on a \$3,000 salary or else his relations with great railway and sleeping car corporations are too close to bear inspection. It is indeed a fine thing to this self-anointed champion of labor and the working man taking trips to the City of Mexico and Montreal and Quebec, in private palace cars for which some corporation put up the price.—Jefferson City Press.

SAM B. COOK, candidate for Secretary of State on the Democratic ticket, has prepared a statement which completely refutes Colonel Dalton's charge that the Democrats, in their management of State affairs, had imposed unjust burdens upon the farmers.

He says: "Colonel Dalton makes the specific charge that the Democratic management of State affairs has imposed outrageously unjust burdens, in the form of State taxes, on the farmers of Missouri."

"If this charge is true, if the great agricultural interests of Missouri are being unjustly burdened by State taxation, then Colonel Dalton is perfectly justified in renouncing the Democratic party and espousing the Republican cause."

"Let us see if there is a shadow of truth in Colonel Dalton's statement. The question is not a difficult one to determine. The records are at the disposal of any citizen, and no amount of partisan misstatements can possibly alter them."

"To reach an intelligent conclusion as to whether Colonel Dalton's charge is true it is but fair to institute a comparison of taxation under the Republican rule in Missouri with that imposed by the Democrats."

"During the six years the Republicans were in power in Missouri they imposed a State tax of 50 cents on the \$100 valuation."

DEMOCRATS REDUCED TAX. "When the Democracy regained control a system of economy was inaugurated which resulted in a steady reduction in the tax rate, until to-day it amounts to 25 cents, or just one-half of what the Republicans imposed."

"So much for the tax rate."

"But Colonel Dalton charges that while the tax rate was reduced, the assessments were increased so that the amount of State taxes paid by farmers is greater under the old levy."

FIGURES TELL THE TRUTH. "Let us see how much truth there is in this assertion."

"Colonel Dalton begins with the year 1875 and compares with 1898. In order to meet his contention fairly and intelligently, I will use the same years."

"In 1875 the State tax had been reduced to 45 cents."

"In 1875 the farms of Missouri were assessed, in round numbers, at \$240,000,000."

"At 45 cents, the total State tax on farms amounted to \$108,000,000."

"In 1898 the farms of Missouri were assessed at \$316,000,000, an increase of \$76,000,000."

"In the meantime, tax rate for State purposes had been reduced to 25 cents."

"This made the farms pay in 1898 \$79,000,000."

"Instead, therefore, of an increase in the amount of State taxes, there was a decrease in the total amount paid of \$29,000,000."

"In 1875 the farms were assessed \$25,000,000 higher than the city and town lots of the State."

"In 1898 the city and town lots were assessed \$140,000 higher than the farms."

"Does this look like Colonel Dalton is telling the truth, when he charges the Democracy with imposing unjust burdens on the farmer?"

"Does it not rather prove that this clap-trap about the burdens of State taxes is a mere subterfuge to cover Colonel Dalton's real motives in his flop to Flory?"

TAX ON DALTON'S FARM. "But let us get a little closer home to Colonel Dalton and see how the State burden is oppressing him."

"Colonel Dalton is the fortunate owner of one of the best improved farms in Ball County. It is not a large farm, but it is a high class of cultivation. There are 157 acres, 100 of which are in orchard, from which the Colonel sold the apples last year, on the trees, for \$3,500."

"I have a copy of Colonel Dalton's tax bill for last year, which shows his farm to be assessed at \$2,300."

"Upon this Colonel Dalton paid a total tax of \$57.25."

have the squandering of the \$30,000,000 of State securities by the Republicans also a dead issue. The people are not yet through paying this debt, and as long as a dollar of it remains it will rise up to confront Colonel Dalton and those who advocate turning this State over to the party which forced it upon the State.

"Every citizen has a right to denounce an unjust tax, levied to pay a debt created by fraud, but no good citizen will complain of his just portion of any honest obligation. Besides, Colonel Dalton's farm you all know he held the best Federal office in Missouri for four years, his salary aggregating \$24,000."

Under these circumstances, is it not rather a small affair for Colonel Dalton to parade himself over the State, denouncing the party that was his benefactor, because he has to bear a burden of \$5.83 in State taxes.

ANOTHER STORY REPEATED. "But, says Colonel Dalton, the Democratic State Board of Equalization has discriminated in favor of the railroads."

"Colonel Dalton knows this statement like the other, is not true."

"The records show it to be absolutely untrue."

"Instead of a decrease in the assessed value of railroad property since 1875, as he charges, there has been a greater percentage of increase than in farm property, which has uniformly been assessed at about one-third its real value."

The State Board of Equalization made its first assessment of railroad property under the present law in 1877, when that splendid Democrat and great Missourian John S. Phelps, was Governor."

"In that year the State had 3,190 miles of road, assessed at \$7,500 per mile."

"In 1898 the mileage had increased to 6,592, the total assessment to \$72,897,334 or \$11,067 per mile."

"Thus the total increase in twenty-two years is \$48,708,903, while the increase per mile is \$3,497 or 45 per cent."

"A comparison with the present year shows an even greater increase in the assessment of railroad property."

"This valuation includes all the branch roads, the greater portion of which are poorly constructed and do not pay operating expenses."

The principal lines, such as the Wabash, the Chicago and Alton, the Missouri Pacific, Iron Mountain, Erie and Burlington, Fort Scott and Memphis, are assessed at from \$15,000 to \$18,000 per mile."

"I do not know whether this assessment is too low or too high, but I do know that it is more than double the amount at which the roads were assessed while the Republicans were in control of Missouri."

RAILROAD ASSESSMENTS. "I know, further, and Colonel Dalton can get the exact figures if he will examine the Auditor's reports in the States named, that railroad property in Missouri is assessed 38 per cent higher than in the Republic of Illinois; 42 per cent higher than in Kansas, and 57 per cent higher than in Iowa."

"Does this look like the Democrats of Missouri are discriminating in favor of the railroads?"

"But Colonel Dalton's organ, the Globe-Democrat, says the Democratic State Board has not assessed the street railways of St. Louis high enough. I do not know as to this, but I do know the Republican Board of City Assessors, which prior to 1897 assessed the street railways, valued them at less than \$6,000,000, and that the State Board increased this to nearly three times that sum."

"I know, further, that, while the Republican Board of Assessors of the city of St. Louis valued the street railways at scarcely more than 10 per cent of their actual worth, this same city board assessed the real estate at 70 per cent, or 7 times as much."

"And yet Colonel Dalton proposes to place the farmers of Missouri at the mercy of Ziegenheinism."

"He knows full well that St. Louis dominates the Republican party in Missouri, while the Democracy has its great strength with the people out in the State."

"If Colonel Dalton wants an object lesson in the burdens of taxation, all he needs to do is to pay taxes under Ziegenheinism."

ST. LOUIS AN OBJECT LESSON. "He knows St. Louis, under the reckless extravagance of the present administration, costs her property owners every year double the sum in taxes that is expended by the State for all purposes."

"He knows he pays in Federal taxes ten times over what he pays the State."

"He knows that under the old Republican State Constitution the State officers received salaries and fees which made them rich in a single term."

"He knows that a Democratic Constitution limited the compensation of State officers to reasonable salaries and requires all fees and special taxes to be paid into the State Treasury, by which the departments at the State Capital are made practically self-sustaining."

"He knows that, while the Constitution only requires \$250,000 of the State debt to be paid each year, the Democratic administration in the last four years paid over \$2,000,000 of this debt in excess of the constitutional requirement."

"He knows that Mr. Dockery, during his long service in Congress, was recognized by both parties as the most watchful man of the public treasury of any member in either house."

"He knows that with Mr. Dockery as Governor the same prudent, watchful care of State expenditures will characterize his every official act."

"He knows that before Mr. Dockery's term is half over, the State bonded debt will be wiped out and the State tax of 25 cents reduced to 15 cents."

"What assurance have the people of a like service on the part of Colonel Flory?"

## Our Correspondents.

SEVERAL of our people attended court last week.

Our merchant S. S. Stuckey has just received a full line of shoes. Our doctor is kept busy riding now.

Mrs. W. E. Winchester is improving. John Burford our groceryman passed through Tuesday taking orders from our merchant.

W. R. Limbaugh is able to be out again. J. W. Laird has sold his farm near Drum and is going to Fredericktown where he is going into the mercantile business.

F. G. Lambert is running his saw mill on time now. Uncle Peter Perkins was thrown from a load of hay last Saturday and a sprained ankle was the result.

John Shell has moved his blacksmith tools to our burg and is now hammering iron.

There is a prospect of a stove factory at this place. GIDSON.

The melancholy days have come. Grandma Beal has been sick several days with malaria.

Born—On the 12 to the wife of Marcus Howton a ten pound girl. John W. Cobb lost a valuable cow last Sunday from hydrophobia.

Mr. Cobb killed a mad dog some three months ago, supposed to have bitten the cow.

Elders F. F. Yount and J. W. Davant are holding an interesting meeting at Rock Point this week.

Died—On the 12 infant child of Robert Alexander. The writer is in sympathy with the bereaved family yet we know when the tender buds are plucked from this earth they are sure to bloom in heaven.

Newt Sample has opened a store near this place and invites customers to examine his goods.

Died—On the 17th, near Castor river Mrs. Hannah Dellinger of a congestive chill. Her remains were laid to rest in the Trace Creek cemetery. She leaves a daughter and two sons to mourn their loss. She died in triumph of a living faith and may the bereaved ones realize that their loss is her gain.

NANNIE N.

LUTESVILLE LOCALS. Health is good in our town now. The old cattle buying Miller is going to move to St. Louis, will start today by land.

Brewer the elocutionist was here and elocuted.

A little stoppage now and then at the factory for want of bolts, carelessness of teamsters, or perhaps Governor Stephens, or his wife may cause it, according to Flory's next governor.

Buggy, and cycle riding seems to be enjoyed by a number of our people these pretty Sunday evenings.

Our mill seems to be in the wheat and corn business day and night, a great deal of the time.

If there is anything in the signs, of the times, this will be a mineral point in the near future. You can make a note of that.

Thos R. Green late editor of the Lutesville Banner, is said to be running a democratic paper now and making speeches for Bryan—sic transit gloria mundi.

One item of news, was the cry of some that the next governor of Missouri was coming to open his mighty mouth and astound the people with his eloquence. But he came and used a great deal of his time making fun of women who are fond of flowers. And when the bigoted ignoramus got through with his fulminations, his party was so ashamed of him that but few of them went about, or shook hands with him when he took his leave—glad to get him out of sight—Poor Flory. His coming was well advertised, but few came out to hear him blubber his balderdash, what a joke. They say he wanted to abuse the Governor for not appointing him judge in a certain county, and knowing they couldn't elect any one in the State and Flory being about the silliest block in the party was selected to spew his lies on men and women of the democratic party. Poor Flory; come again and peradventure the mantle of shame may have given way to smiles at the ignorant sallies you aim for wit. Good gracious what a tail the republican cat has.

Dunklin News: "Uncle Bob" Anderson, who lives near Beeghwell and who is well known to the people in this city, is afflicted with a couple of large carbuncles, or sores, that are remarkable for their size. One of them, near his shoulder, is described as being about a foot long, six inches wide and deep enough to reach the "hol-low". He is tenacious of life and bids fair to recover, although the eruptions would probably kill ten men out of twelve. It is said that the sores originated from the bites of a bore, which had perhaps been in contact with poisonous animal matter.
